BIOFA - the Green standard

The most environmental friendly oils and cleaning products are those which are beautiful, durable and produced in a responsible manner. This is the basis of BIOFA's philosophy.

Beauty and protection for your wood

BIOFA Colour Chart

BIOFA Colorwax

The healthy way of wood protection:

- Solvent free water based
- Thousands of colors
- Tested after toy norm EN 71
- Fast drying within 30 minutes

BIOFA Colorwax is a perfect protection for raw wood interior like wooden ceiling, wooden walls, doors, furniture, toys and a lot more. Tested after toy Norm EN 71 and ECO Institut for room climate.

Easy to handle:

1. paint with brush, roll or spray gun
2. dry after 30 minutes and ready

A second layer give more color to the wood. To higher the gloss you can polish the surface with a cloth or white polish pad.

BIOFA - quality, that pays off
